

Technical knowledge

Homes are very important to our every day lives. They keep us warm, safe and give us somewhere to sleep. Homes come in different sizes, colours and shapes. Houses use lots of different material to make the different sections of the house.

How to join materials

You could try **gluing** the materials together.

You could try using **masking tape**.

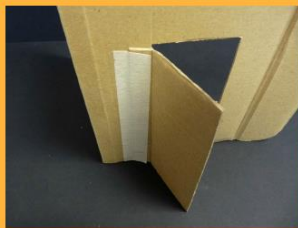

You could try **stapling** the materials together.

You could try using **elastic bands** or **string** to join the materials.

How to make hinges

You can fold a piece of card and stick the short edge to the wall. The door can then open and close.

Keeping safe

Check which way you are holding the scissors if walking around the classroom.
Sit down to cut anything.
Hold sharp objects correctly.

Key Vocabulary
