

Year Four

Wow what a great start to the term - all of the Year Four pupils have returned with such enthusiasm and energy! Thank you very much for continuing to support them with their homework and encouraging the children to complete their Reading and Maths challenges.

English

In English, we are continuing with our theme on the Environment by identifying ways in which we can 'turn trash into treasure'. The children watched a short film called *Treasure*, which inspired them to create beautiful descriptions of a rubbish heap as if it were a mysterious and magical place. They came up with some very imaginative ideas, including old fridges as soldiers lining up for battle and old bottles that are portals into new lands!

Castlefield Woods Litter Pick

We had a very productive afternoon in Castlefield Woods with the Chiltern Rangers. The children did an excellent job at clearing away all the litter and making it a clean and safe place for families to explore, once again. The Chiltern Rangers commented on how enthusiastic and well-mannered the Year Four students were. The photograph below shows the shocking amount of litter that we managed to collect.

Many thanks,

Mrs Hill-Cornwell (Year 4 Leader), Mr Sparkes and Miss Drummond
